

Gen AI Exchange Hackathon

Team Name : THE ACHIEVER'S

Team Leader Name : Arigela Mahitha

Problem Statement : .

Job seekers, especially students and fresh graduates, often struggle to:

- a. Build professional, job-ready resumes.
- b. Write personalized cover letters tailored to specific job roles.
- c. Analyze weaknesses and improve their applications.

Current tools only generate templates but do not provide **personalized insights or analysis**. This reduces employment and wastes time.

Brief about the ptototype :

CareerCraft AI is an **AI-powered Career Analyst and Resume Assistant**, developed by Team The Achiever's from Sandip University, Nashik, Maharashtra.

Built using **Gemini AI (Google's GenAI platform)** and Firebase, CareerCraft AI:

1. Generates professional resumes and cover letters in minutes.
2. Reviews and analyzes resumes, providing a **score, strengths, weaknesses, and improvement tips**.
3. Stores user documents in a profile dashboard with options to save, download, and edit.
4. Works seamlessly on laptops and mobiles with a modern, responsive UI.

Our mission: “To empower individuals to craft their career paths with intelligence, confidence, and innovation.”

Opportunities should be able to explain the following:

How is it different from existing solutions?

- a. Combines **Resume Builder + Resume Reviewer** in one platform.
- b. Uses **Gemini AI** for context-aware, recruiter-style analysis.
- c. Provides **quantitative scoring and qualitative feedback**.
- d. Simple, fast, and student-friendly design.
- e. Works as a **Career Analyst**, not just a resume generator.

How will it solve the problem?

- a. Saves time by auto-generating tailored resumes and cover letters.
- b. Gives **actionable insights** to improve chances of selection.
- c. Ensures every user has a **job-role specific resume**.
- d. Provides **real-time AI-driven feedback** before applying.
- e. Accessible anywhere (mobile + laptop) → empowering students at scale.

USP (Unique Selling Proposition)

- a. **Powered by Gemini AI (Google)**
- b. All-in-one **Career Suite**: Resume Generator + Resume Reviewer + Profile Dashboard
- c. **Smart analysis**: Resume Score + Improvement Suggestions
- d. **Fast, user-friendly, responsive UI** for students and professionals

List of features offered by solution

1. AI Resume & Cover Letter Generator
2. AI Resume Reviewer with Score, Strengths, Weaknesses, Tips
3. Profile Section with saved documents
4. Login/Signup via Firebase Authentication
5. Mobile + Desktop Responsive Design
6. About, Terms, Privacy, Contact Pages
7. Save, Copy, Download as PDF
8. Dark Mode & Smooth Animations

Process flow diagram or Use-case diagram

User Flow:

***Welcome/Login → Profile/Dashboard → Generate Resume & Cover Letter
→ Save/Download → Review Resume → AI Feedback & Score → Save
Report → Profile***

Wireframes / Mockups diagrams of the proposed solution(Optional)

- a. Dashboard view with profile and saved resumes.
- b. Resume generator input form.
- c. Resume reviewer page with AI feedback.

Architecture Diagram of the proposed solution

Frontend: Firebase Hosting (HTML, CSS, JS)

Backend: Firebase Cloud Functions (Node.js + Express)

AI Engine: Gemini AI API (Google GenAI)

Database: Firebase Firestore

Auth: Firebase Authentication (Email + Google)

Technologies to be Used in the solution:

Frontend: HTML, CSS, JS, Firebase Studio AI

Backend: Firebase Cloud Functions

Database: Firestore

AI: Gemini AI API

Hosting: Firebase Hosting

Auth: Firebase Authentication

Estimated Implementation Cost (Optional)

Firebase Hosting + Functions: Free Tier / Minimal

Gemini AI API: Approx. ₹500–1000 for prototype testing

Add as per the requirements for the hackathon:

Future Scope & Hackathon Relevance

- a. AI Career Path Advisor – suggests best roles based on skills
- b. Interview Question Generator – prepares likely interview Q&A
- c. LinkedIn Profile Optimizer – improves online presence
- d. Multilingual Support – resumes in Indian languages
- e. Job Portal Integration – export resumes to LinkedIn/Naukri

🌟 **Impact:** CareerCraft AI goes beyond resume building – it becomes a Career Analyst Platform powered by Gemini AI + Firebase, scalable for students and professionals across India.
